

```
// Chapter 2 Exercises 2.3 question 6

// Win32 console application

#include <iostream.h>
#include <stdio.h>

void main(void)
{
    char go;

    cout << 2.31 << endl << endl;
    cout << "Hello" << endl << endl;
    cout << "Hit any key to continue ..." << endl;
    getchar(go);
    return;
}
```
